FINANCIAL RATING

What?

The financial rating provides an expert opinion on the medium-term viability and creditworthiness of a financial service provider.

Why?

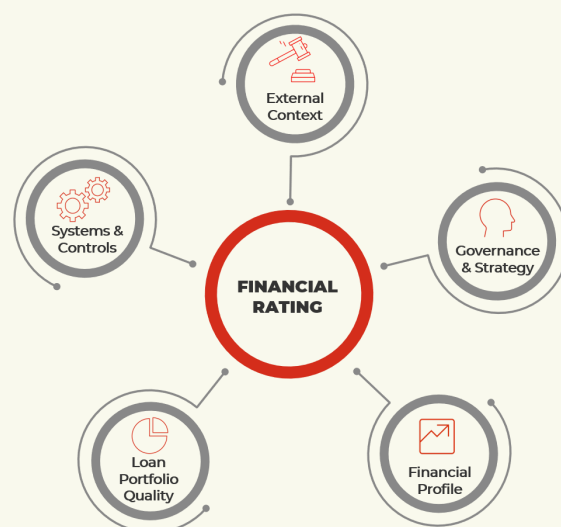

- Compare the practices and performance of a financial service provider with international standards and benchmarks
- Attract funders and investors
- Strengthen institutional governance and decision-making, risk management, systems and performance
- Enhance institutional reputation, accountability, and transparency

Who?

All FSPs engaged in financial inclusion, irrespective of their legal status and size.

How?

The financial rating provides a comprehensive assessment of risks and performance through a dynamic qualitative and quantitative analysis of the following areas:

Process
